# SMART FURNITURE SOLUTIONS 2024

The fifth edition of the Vietnam Smart Furniture solution returns to the thriving Binh Duong Province, where all the Furniture manufacturers concentrated. To help manufacturers meet the high level of competition, the exhibition once again showcases digital technologies and smart products that can help produce faster, more efficient and with better quality. Learn from the best Industry 4.0 practices in the showroom and enhance your processes with automated technology to produce panel furniture, solid wood furniture, wood and panels, windows, doors and floors made of wood.
